## Dosage Calculation and Safe Medication Administration

Dosage Calculation and Safe Medication Administration is an online study program that includes in-depth tutorials, engaging learning activities, assessments and case studies, allowing you to master pharmaceutical math skills at their own pace. By pairing easy-to-use and easy-to-understand programs with classroom content, you will gain an understanding and practice necessary to master content and safely administer medications.

Mathematical equations are simplified through step-by-step animations that demonstrate the dosage calculation process. Through concise content and clear examples, this product uses a systematic method to boost your confidence in dosage calculations and in nursing proficiency.

### Modules include:

- ✓ Case Studies
- ✓ Critical Care Medications
- ✓ Dosage by Weight
- ✓ Injectable Medication
- ✓ Medication Administration
- ✓ Oral Medication
- ✓ Parenteral (IV) Medications

Need help?

✓ Pediatric Medications

✓ Powdered Medication

✓ Safe Medication Administration
